PROFILE:

Architectural designer transitioning into UX/UI design with a strong foundation in human-centered thinking, systems thinking, and visual communication. Passionate about creating intuitive digital experiences that transform complexity into clarity.

EXPERIENCE:

FREELANCE DESIGNER | 2021 – PRESENT

Independent

- Delivered end-to-end web design, graphic design, and logo design projects for clients across various industries, managing briefs from concept through to final deliverable.

ARCHITECTURAL EXECUTIVE | 2024–2026

SAA Architects

- Led door, window, and sanitary standardisation across Tengah General & Community Hospital as part of the Project Standardisation Team, coordinating across architectural, MEP, and contractor teams to resolve clashes and enforce consistent specifications.
- Contributed as an editor to Singapore's first national Healthcare Facility Design Standards (HFDS), collaborated with multiple stakeholders to translate complex clinical and regulatory requirements into clear, structured design guidelines.

ARCHITECTURAL INTERN | 2022–2023

DP Architects

- Contributed to concept planning and feasibility studies across multiple projects including Sentosa Beach, Parkview Square Redevelopment, YMCA Building, and an assisted-living facility with senior-friendly and accessibility-focused design features.
- Collaborated across multidisciplinary teams, communicating design intent between stakeholders with different technical backgrounds and priorities.
